Let's face it, if **pheromone products** had been the be all and end all of attracting either short term and long term partners then we would not need to worry about other important factors in the dating game such as one's personality and the ability to strike up a conversation.

*The globe would have been a quite monotonous place wouldn't that as well as the mystery will be removed from the relationship game!*

## Buying Pheromones

Let's examine some facts about pheromones before you rush out and buy them. In case you are still excited about all of them then yes, give them a try.

There are thousands of different products on the market and also making some on which one to buy comes down to four important factors.

- Who is marketing them and do they research and produce their own formulations.
- Also, how long have they been in business and are they a "fly-by-nighter."

## The Product a Human Pheromones-Based Product

This may appear strange since it really is humans who are purchasing pheromones but this is an important point. The simple fact is, lots of the formulations on the market are not **human pheromones** based.

- Don't be dazzled by claims which suggest a product has the strongest concentration.
- More important is the optimum formulation of the product.

Your understanding of exactly what pheromones will do for you. This is very important because you need to understand - by simply buying pheromones and then splashing them on is not going to guarantee you will turn out to be a great attraction magnet.

## How to Buy Pheromones

There is a huge market online and when you consider the above points then you can cut down your choice making considerably.

The first point is vital in order to all of your decision making process. By keeping well established manufacturers who research and market their own products you can at least guarantee the product is authentic and original.

Before you buy pheromones, if you are having difficulty attracting a partner ask yourself whether there are other areas you may be able to improve on. For example, are you currently a good communicator?

Pheromones could help you get noticed but unless you can strike up any sort of a conversation, then you may as well go out and buy a normal scented fragrance which will probably do the same job of getting you noticed.

- Want to gain an **unfair advantage** in the attraction game?
- Buy pheromones and get the boost in confidence you've been craving.
- Buy pheromones to draw men and women .
