

Pheromone - Enhancing Sex Appeal Of Men And Women

Pheromone has been effective in relaxing women and heightening their own fertility simply by influencing menstruation patterns and enhancing a man's **sex appeal**. Pheromone cologne was developed to make men more while making love enticing. It is in this sense that it has been a revolutionary product that has soared within popularity over time. The idea was to create an aroma-less perfume that could be added to colognes to make the pheromone perfume, which could instantly boost sex appeal. Contrary to beliefs which pheromones don't occur, researchers in their study have actually proven these do help to draw women. By the way, did you ever know that making a **pheromone perfume** in your own home is very simple? All you must do is put in a few drops of pheromone into your preferred cologne for that magnetic effect.

Typically when humans are usually attracted to each other, they emit a scent that is picked up mutually and a chemical reaction follows caused by these **human pheromones**. On many occasions you may not be able to identify the cause for being attracted to someone even when that person may not be physically attractive or charismatic. The reason for such unexplained attraction is situated in pheromone, which is present in all mammals.

Pheromone spray can be applied to parts of the body called the pulse areas for better effects like behind the ears and neck or wrists. Apply minimally because simply overdoing it won't help you to enhance your appeal.
