

The Science Of Love - Discover the Laws Of Attraction And just how Smell Takes on A big Role

For romantics old and new, there is simply no better event to express love to the that special someone than on Valentine's. February 14 is a day like no other, each day we do whatever it takes to make our companion feel extra special, a day we allow them to realize just how much they rock and roll our world and, above all, a day all of us look them in the eye and say: 'I love you.'

And Love Really is the Greatest Gift of All

Warming the actual very coldest days and also brightening the particular darkest skies, love liberates the spirit like nothing else. But what makes people fall in love with one other? What is it that sparks those unshakable feelings of love?

Valentine's Day may be famed for hundreds of years and also the power of love and romance has been inspiring artists, writers and musicians for a lot longer than that. The facts all about, though?

- While there are unquestionably lots of reasons we drop head over heels for another person, there has to be a few explanation regarding it all.
- Many say 'beauty is in the eye of the beholder' but that does not go far enough.

Scientists May Hold a Better Solution

Research has revealed that smell plays an enormous role in destination. Our own organic **pheromones** send out signals that **attract others** to us. Now how we smell will dictate who falls in love with all of us. It is apparent that the senses play a huge part in the rules of destination. Whether we are aware of it or not, sights, smells and sounds all have their part to play in the science of like.

- Women mistakenly believe that men will be attracted to the same kinds of fragrances that attract females but this is often not the case.
- A man's sense of smell is very different in order to a lady's.
- It is much less hypersensitive an expression compared to a woman, so ladies - go heavy on the scent for that romantic evening.
- Research shows that vivid aromas such as lavender, cinnamon and vanilla are usually arousing for men.
- So why not give research a nudge in the right direction and make sure that you smell as tasty as a treat this Evening of romance.
- Tantalise him or her with a brand new spritely lavender perfume.
