

Why online shopping for pheromone sprays and colognes is making waves

Using pheromone sprays and colognes is thus probably the most cost-effective way of increasing your attraction to be able to the opposite sex.

When shopping for pheromone products on the internet it is important to note that the buying price of a particular product depends on its effectiveness to attract a date, and this is mainly based on factors such as the concentration of the attractants in the sprays and colognes as well as just how long the product's appeal will last after application. Generally, products with higher concentrations of pheromones as well as those which last long hours after application are more expensive than those with low pheromone concentrations and people whose appeal lasts only a few hours.
