Human Pheromones Don't Really Have a Strong Scent

The myth that by applying mouthwash, you are covering up your natural pheromones doesn't hold much water. Most people would definitely prefer the smell of deodorant over powerful body odor. Technically, pheromones are odorless; they are more or less detected" by an organ in your nose called the vomeronasal organ. This organ, though more developed in other mammals, sends signals to the brain when pheromones are detected that may say things like, "Whoa, healthy genes at 8 o'clock, let us get his number." At least that maybe what customers of these products hope.

Wear some pheromones cologne and use those basic tips on the woman that you wish to pull in. First you put on a nice set of clothes. Next, apply a drop of pheromone on your hair, wrist and around your neck. Once you've identified the girl you want to reel in, go up to her with confidence, say hi and then use your best pick up line or just chit chat with her casually.
